

Formative Exam Re-takes

Any student scoring less than 80% on a formative assessment is encouraged to retake the assessment. After every formative assessment I will announce two dates/times when the exam may be retaken. These are the only times retake will be offered (no exceptions).

Students retaking the assessment are encouraged to see me prior to the re-take to go over parts of the exam on which they had difficulties. Students should also review the exam feedback form.

Exams re-taken will either be identical or similar to the original exam. The essay/paragraph component of the exam will always be identical to the original exam. Short answer and multiple choice components may change slightly. The exam preparation sheet is your best guide to preparing for the re-take.

I will count the higher of the two scores when entering the exam. Retakes can score a maximum of 80%.
