

Perceptual Illusions

With your group, visit the three sites (), () and () for your assigned illusion. Explore the illusion, discuss it with your group, and then fill out the template below.

Name of the Illusion:	
What appears to be true in the illusion?	
What is really true?	
What is the cause of the gap between appearance and reality? (explain this using your own reasoning and the concepts and ideas discussed in class lecture and readings - don't summarize explanations from the website)	
What are the real world implications of this illusion? How does this illusion indicate problems with perception as a way of knowing?	
KQ progression for this illusion	KC: KQ1: KQ2:
